Central District Health (PHD4) received confirmation of a third case of COVID-19 in a female patient from Ada County under the age of 50. She is recovering well in her home under isolation and reported only having mild symptoms that did not require hospitalization. The patient indicated possible travel related acquisition and has no known association to previous cases.

Moving forward, new cases within Ada, Boise, Elmore, and Valley counties will be reported directly to the CDH website.

Please look to the following online resources for case reporting information:
